

# COOKIE POLICY (extended)

## What are cookies?

Cookies are small text files that are saved on your device (computer, tablet or smartphone) to collect different kind of information: from the anonymous registration of your preferences (which also serve to let us understand how to improve our web site and its contents), to profiling cookies (which we do not use) that allow tracking of your shopping and browsing habits.

## Why we use cookies?

We use cookies to improve our web site, by collecting anonymous and aggregated data about the internal navigation of our web site.

## Are all cookies the same?

### Kinds of cookies

The current legislation distinguishes the types of cookies used as follows:

#### Technical cookies

These cookies are used to browse the website or provide a service requested by the user. They are not used for other purposes and are normally installed directly by the website owner.

Without the use of these cookies, some operations could not be performed or would be more complex and / or less secure, such as for example home banking activities (display of the account statement, bank transfers, bill payments, etc.), for which cookies, that allow keeping the user's identification within the session, are essential.

#### Profiling cookies

These cookies are used to track the user's navigation on the network and create profiles on his tastes, habits, choices, etc. With these cookies advertising messages can be transmitted to the user's device in line with the preferences already expressed by the user while browsing online. **We do not use this kind of cookies on our web site.**

## How long do cookies last?

They are deleted when you close your browser.
